

COMPRESSION SPRING 2 (CNT2)

AMS Compression Spring 2 is utilized to keep up with consistent strain on the electrified fence wires. Wire pressure on an electric fence will shift over time and the springs will keep a steady power on the electric fence wires to keep them tight.

STOCK CODE	DESCRIPTION
AM-CNT2-1	Compression spring 2 Black
AM-CNT2W-1	Compression spring 2 White

FEATURES

- The stainless steel spring keeps up with steady strain on this fence of AMS
- A nylon plastic internal which dispenses with a galvanic response between divergent metals reduces rust and expands the life expectancy of the wire
- Can be utilized with an electrified fence wire
- Medium-pressure spring (gold) which can strain wires up to 1.6 mm

SPECIFICATIONS

Recycling Material	SPI 2 Stainless steel spring UV stabilised plastic inner
Colour	Black/White
Operating temp	-40 to 80°C
Spring Tension	Medium 8kg
Operating voltage	0 - 12KV

02 YEARS WARRANTY
